

Where are the Electric Cars?

Electric Cars Per 1,000 People

The north western region of Washington has by far the most electric cars with an average of 24 electric cars per 1,000 people

Despite being a county made up of islands, San Juan has the highest density of electric cars, 52 per 1000 people

The average number of electric cars per 1,000 people in this area is 4 electric cars

Kings County has by far the most registered electric vehicles, 90,326!

There are only 4 registered electric cars in all of Garfield County

The amount of electric cars in an area depends a lot on the built infrastructure required in owning an electric car like charge stations.
